BALLANTRAE JEWELLER.

The Mayville Steam Laundry has always been in the front rank, and by its change in management is only intended a public bid for increase of business by reason of additional improvements. The Laundry knows from a personal acquaintance with both members of the firm, Ball & Cox, that everything will be done with promptness and care. Their Dry Department will be an innovation, something surprising to those who have work to be done in this line.

IT'S A SURE GO!

Mayville Pulley Factory Will Be Started at Once.

Yesterday a contract was closed with Lane & Worick for the erection of buildings for the Sprinkle Pulley Factory.

OUR BOYS ACTUALLY PULLED A GAME YESTERDAY!

It Was a Long Time Coming, But the News Was Highly Good—For a Tie With Knoxville.

Brother Miller of the Ashland News is struck on our team, and there are others too, (when they play ball.) Here him talk horse sense: "Such a baseball team as Mayville has is a big advertisement for a town, and Mayville, since her defeat of the two League teams, is known to more people than ever before. The sporting columns of the leading papers the country over have been carrying the same news or less for the past four weeks, and no column is more widely or generally read than the sporting column. One of the first steps toward booming a town of the future will be the support of a winning baseball team."

WEEKLY CROP REPORT.

UNCLE SAM'S WEATHER CLERK ON THE PROSPECTS.

Condition of Cereals and the Small Crops Throughout Kentucky Up to Monday Evening Last.

The weather of the past week was characterized by a temperature considerably in excess of the normal, a nearly average amount of sunshine and frequent thunder storms fairly well distributed. The average amount of rainfall for the week was very near the normal, but was quite unevenly distributed, though rain of greater or less amount fell in nearly all parts of the state. In many of the Central and Southern counties very hard rains are reported, in some instances accompanied by hail and high winds which damaged crops seriously in localities of limited area. An unusual amount of damage to stock and buildings from lightning is also reported.

In some few districts in the Northeastern counties drought conditions are still reported, though the principal complaint is of shortness of water for stock and the drying up of pastures, serious injury of a general character to crops being reported. Generally speaking, the conditions described have had a most favorable effect upon all forms of vegetation and the present outlook for the crops which are unharmed is very promising.

The correspondent at Morehead states that during an extensive trip made by him through the Western half of the state he saw the best crop prospects he had seen in years. This statement is substantially true of other sections also.

Wheat threshing has progressed during the week, and but little now remains in the fields. The reports relative to the yield continue to range from poor to fair, both as to quantity and to quality. The most favorable reports come, as a rule, from the Western half of the state, those from the Eastern and Northern sections generally indicating a poorer crop.

The rains have still further improved the outlook for oats, and the majority of correspondents state that a good yield is anticipated. The greater portion of the crop has been cut except in the extreme Eastern counties, where it is ripening rapidly, and will be ready for cutting this week. Some threshing has been done in the Southern and Western sections of the state.

Hay cutting was nearly completed during the week, and owing to the recent rains, the yield is generally better than was anticipated some time ago, but is short of the average.

Correspondents in the Northeastern counties, where the rainfall has been less than in the others, state that the meadows are very thin and dry, and that they will yield a poor crop.

Correspondents in all parts of the state still report that corn is remarkably fine in appearance and the early crop is now almost ready for harvest. For six weeks past the weather conditions have been all that could have been desired for its progress, and, as a result, it is in exceptionally fine condition. Some damage was caused by high winds and hail, especially to the more advanced portion of the crop, and many fields were badly beaten down or washed out, but the injury was confined mainly to localities of limited area. A great number of reports state that the outlook for the crop is the best seen in many years.

Tobacco was generally improved by the weather conditions of the week, especially that portion which was planted late. It has recovered in most instances from the unevenness which marked its earlier growth, and its present rate of progress will permit it to beyond the danger of early frosts. Much of the early planted portion of the crop in the Southwestern portion of the state has been topped. There are but few exceptions this week to the general reports of the fine condition of the crop.

Garden products of all kinds are reported to be very plentiful and of good quality. The prospects for late Irish potatoes are also very good.

It is your duty as well as privilege to look it up as long as you can. One way to do so is by dressing your hair with Ayer's Hair Vigor. It causes the hair to retain its color and fullness to a late period of life, and keeps the scalp in good, healthy condition.

KENTUCKY REPUBLICAN PLATFORM.
We are opposed to the free and unlimited export of silver, believing that would ruin the country in financial ruin. We believe in a sound currency and in the use of both gold and silver for currency, provided always that a dollar in one is made precisely as valuable as a dollar in the other.
We favor a tariff so regulated as to protect the interests of all classes of our citizens upon articles that may be successfully manufactured or produced in this country, thus insuring good wages to the laborer and a home market to the producer; and in connection with this we favor the re-establishment of the doctrine of reciprocity. We believe that such a system will defray our Government expenses, gradually liquidate all indebtedness, restore public confidence and relate to the rear the untold calamities now prevailing concerning the currency. In view of the past financial history of the Democratic party, its devotion to the old debt system and its wild promises, we affirm that the Republican party can be more safely trusted to regulate the national currency of the Nation.
We favor an American policy which will protect American and American interests in every part of the world at all hazards and will sympathize with struggling Republics rather than ignorant monarchies.

Uncle Sam's Shortage.
The deficit in the National Treasury for the first 22 days of the present fiscal year is \$13,221,415 25.
EVERY time a workman's wages is increased up hope some Democratic Editor and says, "We did it." Will they tell us how the workman's wages came to be reduced in the first place?
ALL efforts to draw from "General" P. W. HARBIN an expression of his attitude on the money question have proved futile, and at last accounts he was preparing to leave the state as soon as possible.
DEMOCRATIC papers are busy now recording the advances in wages, but they carefully conceal the fact that wages are not yet as high as they were when the Democratic Free-trade policy started them on the down-grade after the election in 1892.
THE New York Press says there will be no new issue until a Republican Protective Tariff has taken the place of this Democratic Tariff of debt and destruction. There will be no new issue until American industry stands where it stood in 1892 and American wages have been restored to the high standard that then prevailed.

It's Brown's Iron Bitters you need.

Women Suffer
from household cares; from overwork; from worry; from neglect; from diseases peculiar to their sex. In fact nearly all women need "building up."
Brown's Iron Bitters
that old and reliable strengthening medicine, is made for just this purpose.
It gently stimulates the action of the vital organs and purifies and enriches the blood, beautifies the complexion, sweetens the breath, and turns the weakness and suffering of disease into the joy of perfect health.
Brown's Iron Bitters is pleasant to take and it will not stain the teeth nor cause constipation. Read enclosed red lines on the wrapper. Our book, "How to Live a Hundred Years," tells all about it, free for 3c stamp.
BROWN CHEMICAL CO. BALTIMORE, MD.

We see nothing pruned nowadays against those rascally "robber barons" who, a few years ago, were described by the Free-trade papers as existing merely for the pleasure of putting down the value of labor and robbing a wage earner of all that he possessed. Speaking of recent increases in wages, one of the muggiest of Mugwump papers, the Springfield (Mass.) Republican of July 5th had this to say:
"In all cases, we believe, the increase has been granted voluntarily, and it constitutes the most remarkable record of the kind ever known in our industrial history."
The manufacturers and other gentlemen who have recently been "voluntarily" adding to the income of their employees are the very same men who, in 1892, were described in a blackguardly way by this very same and other Mugwump and Free-trade sheets as the "robber barons" whose very existence even was a curse to the United States. Now that the "robber barons" are "voluntarily" increasing wages, these same scurrilous sheets regard their action as "the most remarkable record of the kind ever known in our industrial history." But when wages were reduced in 1892 they could only say that the employees had "robbed barons" as their employers.

Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness results. The inflammation can be taken out and the tube restored to its normal condition, hearing will be restored. Beware of cures that promise to cure deafness by cathartics, but cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

AT TORONTO.

The Coroner's Jury Finds a Verdict Against Holmes

For the Cruel Murder of the Pietzel Children Last October.

A Warrant Has Been Issued for His Apprehension. The Jury Was Out Only Fifteen Minutes—Summary of the Evidence Given Before the Coroner.

TORONTO, Ont., July 25.—The inquest into the murder of the Pietzel children was concluded Wednesday night before Coroner Johnson and a jury. Some evidence was taken and strong and vigorous summing up was made. The jury was out only fifteen minutes and there was from the beginning no disagreement among them. They returned the following verdict: "That Alice Pietzel came to her death on or about the 25th of October, in the city of Toronto, and that Holmes, alias Modgett, alias Howard, did on or about the day last aforesaid at the said city of Toronto, unlawfully, wilfully, and with malice aforethought, kill and murder her, the said Alice Pietzel, contrary to the peace of her sovereign lady, the queen, her crown and dignity."
Coroner Johnson immediately issued his warrant for the apprehension of Holmes. This is the first case under the new criminal code in which intervention of the magistrates' court is unnecessary, and the matter will go direct to the attorney general's department. Proceedings will be taken at once to have Holmes extradited.
The following is a summary of the evidence taken:
Albert Low, bookkeeper at the Albion hotel last October, identified photographs of the two Pietzel girls as those of the two children who were registered at the hotel in October last as Alice and Lillian Canning. They were there several days, and their bill was paid by a strange man.
Dr. E. S. McCullis swore that Holmes was in his office in October and positively identified a photograph as that of Holmes. Holmes came to him to talk about practice of medicine, and gave him a card with the name of J. H. H. Holmes, Cincinnati. Witness remembered this because he remarked to Holmes that the Holmes had the blood of all the Howards in him, and Holmes replied "Yes." Holmes wanted witness to go into partnership with him in Detroit, or Cincinnati, but the offer was declined.
Isaac Ambrust, who occupied the house in St. Vincent street, in the cellar of which the bodies of the children were found, was present when the bodies were exhumed. He had noticed a bad odor in the kitchen for several weeks previous to the detectives visit to the house.
This concluded the evidence, the coroner summed up and the verdict quickly followed.
